## 1. Overview of Boiler Services

This software solution is designed to streamline the management of industrial and commercial boiler services. It aims to improve safety, efficiency, and compliance by digitizing workflows and automating key functions. The system will provide real-time monitoring, maintenance scheduling, and detailed reporting to ensure the continuous and optimal operation of boiler systems.

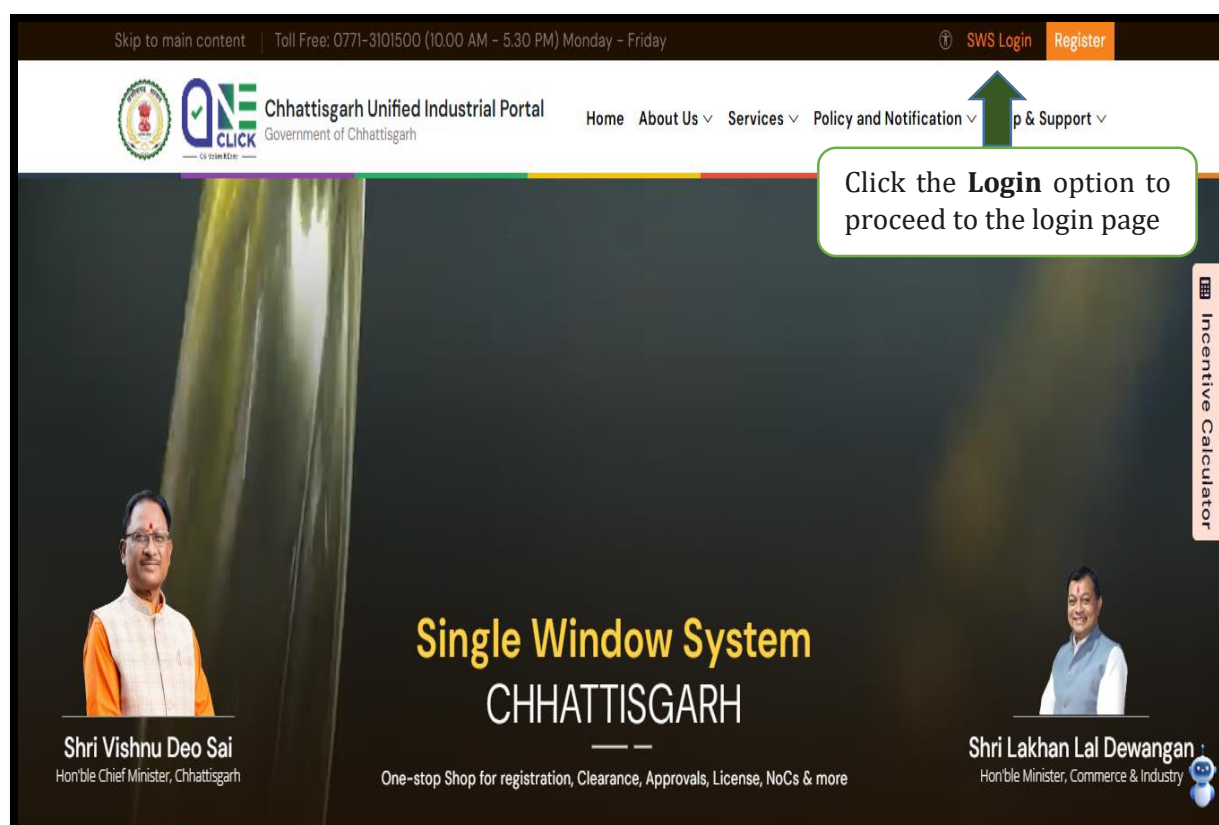

**Purpose of New Boiler Registration under Boiler Act:** Boiler registration is mandatory to ensure compliance with government safety and environmental regulations. It facilitates inspections, certifications, and provides legal and insurance protections, guaranteeing safe and efficient operation.

## 2. How to Get Started

Enter the application URL (<https://oneclick.cgstate.gov.in>) in the browser and the page navigates to the Home page of the SWS application.

## 3. How to Login

The user to login with the credentials into the application in the home and login page as a **Figure 3.1 & 3.2**.
